**INSTALLATION of CABINET**

1) Carefully remove all packing material. Place hardware packages, shelves, and door aside until needed.

2) Determine desired location of cabinet on wall. Mark wall to show wall opening size (see dimension chart). Generally, the recommended height to the center of the cabinet is 64” from the floor. (Figure 1)

3) CAUTION: Wall studs, plumbing or electrical lines that interfere must be removed or relocated. Cut wall opening, being careful not to damage the surrounding wall surface. Insert framing to support all plaster board edges.

4) Prepare the mounting screws by placing the screws into the clear plastic bases. (Figure 2)

5) NOTE: For ease of installation, an additional person is recommended. Insert cabinet into wall opening. (Figure 3). Ensure the cabinet is plumb and level. If necessary use a carpenter’s level and shim corners of cabinet. Secure to wall studs through the four (4) mounting holes inside cabinet, using the screws that have been placed into the plastic bases. (Figure 4) Do not over tighten the mounting screws as body side wall may bend and prevent shelf installation. Only tighten screws until they are flush with the body.

6) Snap the screw covers over the screw bases. (Figure 5)

**FAMILIARIZE YOURSELF WITH HINGE PRIOR TO MOUNTING.**

125 Degree Hinge
- The bar on the bottom of the hinge slides into the slot on the bracket.
  - Press down to snap into place.

170 Degree Hinge
- The bar on the bottom of the hinge slides into the slot on the bracket.
  - Press in lever, then lift up on clip to release hinge.

**TO REMOVE HINGE**

P.O. Box 3249, 9725 Owensmouth Avenue, Chatsworth, CA 91311 • 818-882-6028 • FAX 818-700-1540
INSTALLATION of DOORS

1. Remove hinges and screws from hardware bag. Mount hinge unit on door as shown in Fig. 6 or Fig. 7 securing with screws provided.

2. Install the door by inserting door side of the hinge into the bracket on the body as shown:
   A) 125 degree hinge
   Insert door side of clip hinge as shown in Fig. 8
   B) 170 degree hinge
   Insert door side of clip hinge as shown in Fig. 9

3. Check door for proper alignment. If the door needs to be adjusted please refer to the adjustment procedures in Fig. 10 or Fig. 11. Door edges should be aligned with the face of the body.

4. A) 125 degree hinge only:
   Snap on hinge cover plate. (Fig. 12)

B) 170 degree hinge only: (Fig. 13)
   After proper alignment of door, REMOVE door from body by unclipping each hinge. (Sec pg 1)
   Place the door on a secure flat surface with the hinges facing up. Use the diagrams in Figure 13 to apply the attachment to the top and bottom hinge.

NOTE: Only TWO hinges need the attachment.
   Only TWO attachments included.
   (a) Improper mounting
   (b) Position soft close attachment into place.
   (c) Slide hinge into place.
   (d) “Click” soft close attachment into place.
   C) Snap on the black limit clip.
   D) Re-attach door to body as described in Figure 11. Re-Check door for proper alignment.

MIRROR CARE INSTRUCTIONS

- Use only clean warm water and a clean, soft, lint-free cloth.
- DO NOT USE cleaners that contain solutions of ammonia, vinegar, or chlorine.
- DO NOT USE powdered cleansers or steel wool.
- NEVER spray cleaning agents directly on mirror, especially on exposed edges and mirror backing. Apply cleaner to soft cloth and wipe mirror. Dry mirror throughly.
- Keep mirror dry. A well ventilated bathroom is important.

INSTALLATION of SHELVES, HOLE PLUGS AND BUMPER

Note: Carefully review the shelf location desired. The hole plugs are difficult to remove once inserted so it is important to locate the shelves in the proper location before the hole plugs are installed.

1) Select where you want the shelves to be placed.
2) Insert two (2) shelf brackets at each end of the shelf locations. (Fig. 14)
3) Set shelves in place on the shelf brackets, pressing down on shelf to lock in place. (Fig. 14)
4) Remove hole plugs from hardware bag and place into remaining holes. (Fig. 15)
5) Remove bumpers from hardware bag and position to body.
   (Not applicable to models noted with an * on page 1)
